Mr. Ashcroft:

Get the government (State and Federal) off the back of Microsoft!  
Bill Gates and Microsoft have done more positive things for this country  
than all of posturing people in our Senate combined.

We need to tell our power hungry politicians to get out of the way since  
only President Bush and Mr. Rumsfeld seem to be both willing and able to  
lead in a positive direction. You have great promise but it is time to  
get out front and lead.
